# Way' Welcome to the Okanagan Rail Trail *xwił i? s'wk'na?qin* Kilometre 0 gateway at *K'ək'mapıqs* (Little Head of the Lake)

Once an industrial corridor and shunting space for an active rail line, this area is being transformed to be the start/end point of the Okanagan Rail Trail.

**Where the adventure begins.**

*“Trail gateways anchor the ORT experience, and are places of information, orientation and celebration.”*

ORT Management Plan

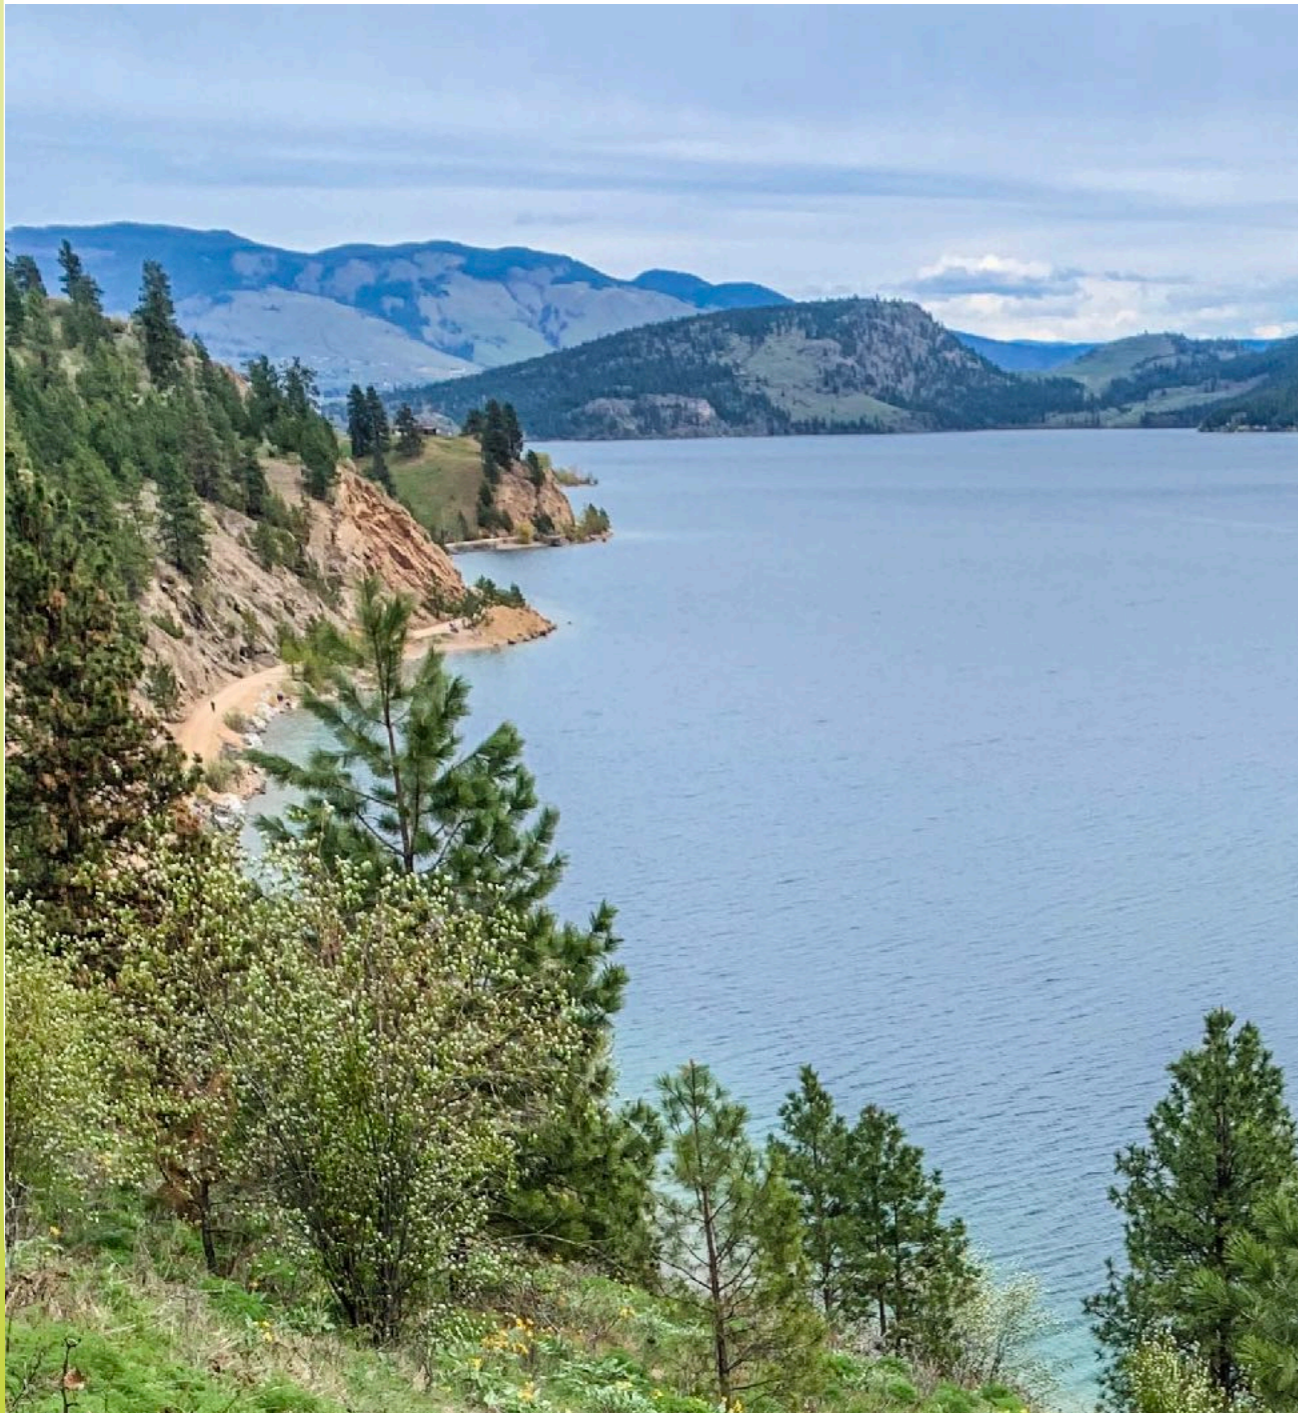

# Kilometre 0 at *K'ək'mapłs*

**The northern gateway at Kilometre 0 will create a safe, spacious trailhead to welcome hundreds of thousands of visitors each year.**

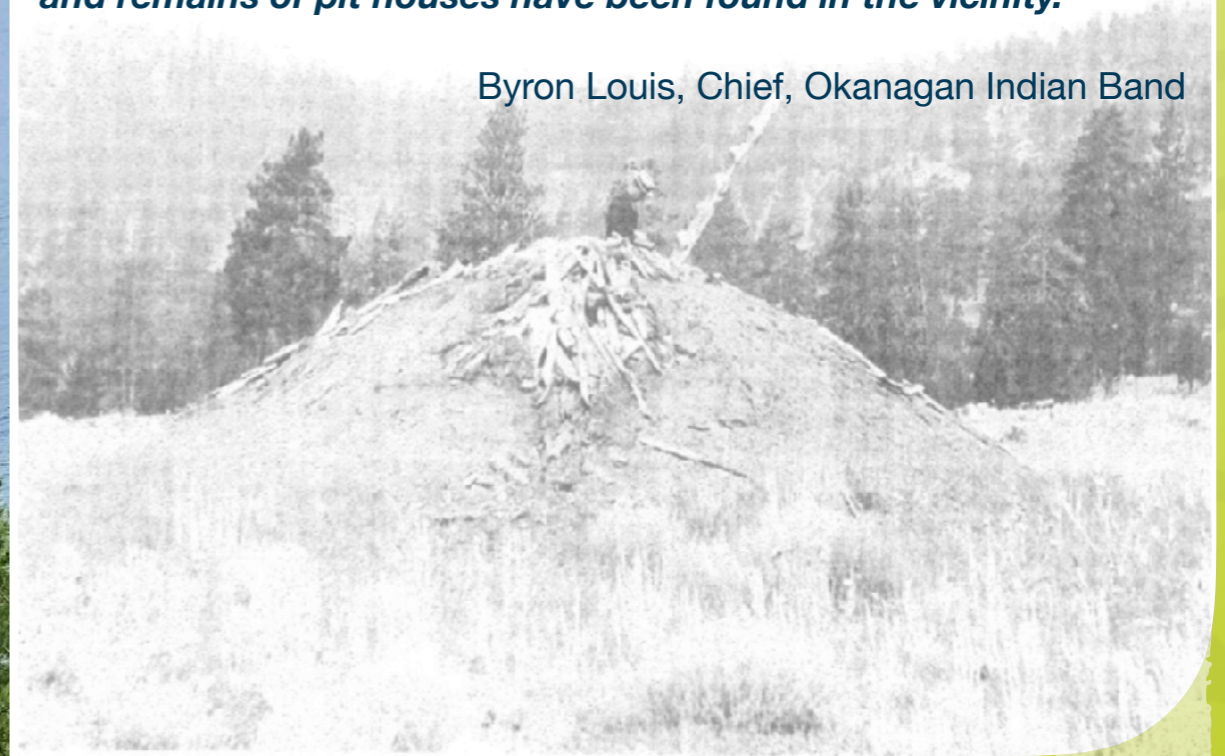

# Kilometre 0 at *K'ək'mapłqs*

Site improvements and interpretation will reflect and celebrate the unique natural and cultural values of the northern (Kalamalka) trail section, and *K'ək'mapłqs* (the Little Head of the Lake) area in Coldstream.

*“The Okanagan Rail Trail was originally part of a larger interconnected network of trails utilized by our People to access all parts of Northern Syilx Territory to undertake essential sustenance, societal and spiritual activities. *K'ək'mapłqs* was important for fishing, hunting, and harvesting, and remains of pit houses have been found in the vicinity.”*

Byron Louis, Chief, Okanagan Indian Band

## Phase 1 Native Landscaping and Stewardship

**Restoration Ecology + Indigenous Knowledge + Volunteer Stewards = A great start for Kilometre 0**

***“Grasslands are one of the most difficult ecosystems to successfully restore. This site is one of the most successful restoration projects I have seen.”***

Carrie Nadeau, Senior Ecologist, Associated Engineering

# ***‘Okanagan Sunflower’ Campaign***

## **Phase 2**

***“FORT first began work on the Km 0 trailhead in 2019, before the unimaginable challenges of the pandemic, heat waves and fires, and residential school findings.***

***The Okanagan Rail Trail and its beautiful natural surroundings provides a source of health and healing. A place where we can connect with and care for our natural environment. An opportunity to learn from the original stewards - the syilx people.***

***Granting agencies, community residents and corporations supported the initial vision for the trailhead. Now with detailed plans, we need your support to make it happen.”***

Laurie Postill, Chair Friends of Okanagan Rail Trail

**Arrowleaf Balsamroot**

**The name 'Sunflower Campaign' is symbolic of the joy of our spring wildflowers and the hope from planting for the future. These beautiful wildflowers are important in the syilx culture, and will be one focus of interpretation at Km 0.**
